

Bill of Costs

Taking into consideration that the final outcome of the research will be a model in scale (to be defined) of the parametrically conceived benches, the estimated bill of cost is as it follows:

- 2 sheets of plywood (2ftx4ft) = U\$ 30,00
- 1 sheet of acrylic (1ft x 2ft) = 17,00
- Microsoft Kinect = U\$ 0,00

Schedule:

	Midterm Review	Theoretical Research	Motion Capture	Model Creation on Rhino	Digital Fabrication of Model	Final Review
Week 4						
Week 5						
Week 6						
Week 7						
Week 8
